$$$ Recycle to raise funds for school PAD program $$$

Project ADAM® and PCR have teamed up to create two new programs to raise funding for and awareness of Public Access Defibrillation (PAD) programs in schools.

Program A: Project ADAM Support Fund – supports the operational costs of Project ADAM.

Program B: School AED Purchase Fund – helps enrolled schools earn money to be directly used in the purchase of Automated External Defibrillators (AEDs).

We've made it easy for you to get involved!

Here's How It Works

Step 1 Contact Karen DeWild at 800.654.6072 or Karen@printcartridgerecycle.com to enroll. Be sure to mention one of the two Project ADAM programs above to receive the special incentive reward amount.

Step 2 Receive your free collection bags and supplies.

Step 3 Fill them up! Collect used printer cartridges and cell phones.
Each inkjet or laser print cartridge earns $1.
Each cell phone earns $2.

Step 4 Send collected items to PCR in the provided postage-paid bags as you fill them.

Payment Information

Earnings accrue as recyclables are received at PCR. Every six months PCR will send a check to Project ADAM (Program A) or your school (Program B) for the total amount earned. For more recycling program information please contact Karen DeWild at 800.654.6072.

Project ADAM (Automated Defibrillators in Adam's Memory) *is a not-for-profit program of Herma Heart Center at Children's Hospital of Wisconsin, whose mission is to serve children and adolescents through education and deployment of life-saving programs that help prevent sudden cardiac arrest.
