Foster/Adopt Incentive Referral Program (F.A.I.R.)

CSSW's Out-Of-Home Care program may utilize referral incentives to recognize agency foster parents, faith organizations and community organizations that assist with recruiting new foster homes. When referral program dollars are utilized a form letter is sent to the recipient to explain the reimbursement and payment structure. Historically, CSSW gains the best foster parent candidates through referrals received from already licensed foster parents.

Beginning in January 2012 CSSW's F.A.I.R. program will consist of the following:

- A CSSW foster parent/organization who refers an applicant for licensure will receive a thank you note and logo item at the time CSSW receives the applicant's data sheet.
- When/If the applicant becomes licensed the CSSW foster parent/organization referrer will receive an award payment of $200.
- The foster parents/organizations who successfully referred new homes to CSSW can receive special recognition at annual foster parent appreciation events (dinners, picnics).
    - CSSW will provide an extra incentive for referrals that produce new homes licensed to parent teens (license with minimum age of 13). The extra incentive will be $100 dollars received by the CSSW foster parents/organizations referrer at the time the applicant referred is issued a license. This extra incentive opportunity will be highlighted in brochure material but the dollar award will not be identified.
    - CSSW will provide an extra incentive for referrals that produce new homes licensed to parent medically needy children. The extra incentive will be $100 dollars received by the CSSW foster parent referrer at the time the applicant referred is issued a license. This extra incentive opportunity will be highlighted in brochure material but the dollar award will not be identified.
