

### CRI/MCW Histology Core Price List

|   | Price<br>(per hour, slide or block) |
|---|-------------------------------------|
| <b>Instruction Fees</b>   |                                     |
| Develop/design new processing, embedding and staining                 | \$32.00                             |
| Histology training/instruction  | \$32.00                             |
| Immunohistochemical staining instruction                              | \$32.00                             |
| <b>Processing, Embedding, &amp; Cutting of Fixed Tissue Specimens</b> |                                     |
| Grossing  | \$4.00                              |
| Embedding   | \$3.75                              |
| Process & Embed 1 block   | \$5.00                              |
| Cut 1st unstained slide   | \$4.75                              |
| Each additional unstained slide                                       | \$3.25                              |
| Each additional unstained slide (levels or serial)                    | \$3.75                              |
| Two or more different samples on one slide                            | custom                              |
| <b>Embedding, &amp; Cutting of Frozen Tissue Specimens</b>            |                                     |
| OCT embed 1 block   | \$5.00                              |
| Cut 1st unstained slide   | \$12.00                             |
| Each additional unstained slide                                       | \$8.00                              |
| <b>Staining</b>   |                                     |
| <b>Histochemical Staining</b>   |                                     |
| H&E   | \$5.50                              |
| Category I Special Stains   | \$9.00                              |
| Category II Special Stains  | \$15.00                             |
| Category III Special Stains   | \$22.00                             |
| <b>Immunohistochemical Staining</b>                                   |                                     |
| Stain 1 IHC slide (PI provides antibody)                              | \$29.00                             |
| Stain 1 IHC slide (core provides antibody)                            | \$34.00                             |
| Optimized Staining Only (3 slides, 3 trials)                          | \$150.00                            |
| <b>Customized Histology</b>   |                                     |
| Special adaptations to routine procedures                             | custom                              |
| <b>Materials</b>  |                                     |
| Slide folders (cardboard)   | \$6.00                              |
| Slide boxes (hold 25 slides)  | \$8.00                              |
| Slide boxes (hold 100 slides)   | \$12.00                             |
