CCER and CEKF Present: Pursuing PCORI Funding – An interactive forum to discuss PCORI grant review criteria and generate ideas

The Center for Clinical Effectiveness Research (CCER) of the Children's Research Institute and the Community Engagement Key Function (CEKF) of the Clinical and Translational Science Institute (CTSI) of Southeast Wisconsin invite you to an informational and interactive forum to discuss securing funding from the Patient-Centered Outcomes Research Institute (PCORI).

Drs. Julie Panepinto and David Nelson of the Medical College of Wisconsin both served as grant reviewers for PCORI. Join Julie and David to hear about their experiences and:

- learn about PCORI and their grant application and review criteria
- gain insights into the criteria PCORI uses for scoring grant applications and engage in a discussion to review and score a sample research project
- participate in generating new ideas and strategies for follow up

The organizers are interested in discussing potential PCORI project ideas so please bring a topic for discussion.

- o When: December, 13th, 2012 at 10:00 am to 11:00 am
- o Location: MFRC 3075

Please contact Fouza Yusuf at **fyusuf@mcw.edu** (Tel:955-4837) to reserve your spot today.

GlaxoSmithKline to share detailed clinical data

As part of measures to advance openness, transparency and collaboration, GlaxoSmithKline will begin sharing its clinical trials data. A new system will be created that will give researchers access to detailed, unidentified patient level data from clinical trials. Researchers will be required to submit requests to be reviewed by an independent panel of experts. If the request is approved, the data will be made available through a secure website.

PCORI Seeks Patient and Stakeholder Reviewers for Funding Applications

The Patient-Centered Outcomes Research Institute (PCORI) invites individuals who are not typically included in the scientific review process to consider applying to serve as reviewers for funding applications. In conjunction with scientific reviewers, patient and stakeholder reviewers will evaluate applications for their patient-centeredness and potential impact. If you are interested in being considered for the next review cycle, please use the link below to submit your application by Friday, November 9, 2012.

PCORI Stakeholder Reviewer Application

New Resource from the EDM Forum: A Framework for Patient and Consumer Engagement in Evidence Generation

A new seven-page resource, based on work conducted by AcademyHealth under the auspices of the Electronic Data Methods (EDM) Forum is available for download to an iPad. Using input from consumers, patients and researchers, this resource delineates the vital ways these groups can participate in the evidence generation process.

PCORI Conference "Transforming Patient-Centered Research: Building Partnerships and Promising Models"

The Patient-Centered Outcomes Research Institute (PCORI) recently held workshop aimed at guiding PCORI in its efforts to build a patient-centered research community. This was the first in a series of patient and stakeholder engagement workshops scheduled this fall. You can watch the videos of the plenary sessions using the link below. Sue Sheridan, the Director of Patient Engagement at PCORI also shared her thoughts from the workshop in the blog link below

REQUEST FOR COMMENTS/FEEDBACK

PCORI Seeks Specific Research Questions from Patients and Stakeholders

The Patient-Centered Outcomes Research Institute (PCORI) invites patients, caregivers and the broader health care community to propose specific research questions via a survey on their website. All suggestions will be evaluated and have the potential of being selected for use in targeted funding announcements. To submit research questions, please use the link below.

SELECTED FUNDING OPPORTUNITIES

Paul B. Beeson Patient-Oriented Research Career Development Award in Aging

(K23) **RFA-AG-13-012**

(K08) **RFA-AG-13-011**

US Department of Health and Human Services

National Institutes of Health

Application Receipt/Submission Date(s): December 7, 2012

Expiration Date: December 7, 2012

Patient-Centered Outcomes Research Institute (PCORI) Funding Opportunities

PCORI has funding available in the following four general areas:

- Assessment of Prevention, Diagnosis, and Treatment Options
- Improving Healthcare Systems
- Communication and Dissemination
- Addressing Disparities

Application Deadlines:

Cycle III Submission

- o Letter of Intent due Feb 15, 2013
- o Application due March 31, 2013

For full details of these opportunities, follow the link below.
