

## **Applying for Daycare Benefits for Foster Children in Wisconsin**

Three options exist for applying for benefits: call, go to the Cogg's Center on 12<sup>th</sup> and Vliet, or apply online. If you call, be prepared to wait. If you go down to the Cogg's Center, you are given the same application that is available online. You will have to wait for an available computer but will have the benefit of having someone there to answer your questions if you have any. If you complete the application online properly at home, you can save yourself a lot of time! You will also be able to make changes much more easily. The key is to complete it properly. As a foster parent, if you do not answer a question correctly, your application could be denied. The steps below show you how to apply and indicate that the child you are applying for is a **foster child**.

After you complete your application, you will be contacted for an appointment to review your application. There is certain information you will need to complete the application process and additional information you will need for the review. After your review, daycare hours must be established, which will indicate how long the child is authorized to be in daycare each week. At the end of your review, be sure to ask how you can go about getting your hours established and then follow the directions.

What you will need for applying online: the child's social security number, date of birth, full name, and birth parent information, if available. You will also need social security numbers of anyone living in your house, their employment information and their income amounts (this is only used for number of hours the child is authorized, not to determine if you are eligible based on income for this service).

What you will need for your review appointment: Proof of employment (pay stubs and possibly last year's taxes, if self-employed), your employer's FIEN, proof of your address (utility bill), your ID (driver's license, state ID), placement letter stating the child is in your care, and the daycare's provider number.

22. You have now completed the necessary tasks to have the child successfully marked as a foster child. You will now be asked to enter information about the biological family. Enter what you know. You will also be asked to enter your employment information. Answer all questions accurately as they will ask for supporting documentation in your review meeting. There are no income restrictions for foster parents.

The remaining questions are fairly straight forward (who is your employer, how much do you make, etc.). Also, you are given many review pages throughout the process. Review your work and edit, if needed. At the end, you will be asked to file your application and submit it to the agency. It is recommended that you print your application for your own records as well. You will then receive a phone call to set up an interview. You will need copies of documents listed at the beginning of this document.

When you are finished, click Logout. You can return to Access at any time to view your application. Simply return to the website, click Login, enter your username and password, and your applications will appear.

**Note:** At any time throughout this process, you may click the “Save and Exit” button to save your work and return at another time to complete it. You will get a message asking if you really want to leave. Select “Save this Application” and then click Next. Your application will be saved and you can access it when you login later. Simply return to the website, click Login, enter your username and password, and then your application will appear. Click the Continue button to proceed.
