

CHILDREN'S SERVICE SOCIETY
OF WISCONSIN

2016 ANNUAL REPORT

Children's
Hospital of Wisconsin

Kids deserve the best.

CHILDREN'S SERVICE SOCIETY OF WISCONSIN

Children's Service Society of Wisconsin (CSSW), a member of Children's Hospital and Health System, Inc. (Children's) contributes to Children's vision for Wisconsin's children to be the healthiest in the nation. For more than 125 years CSSW has improved the lives of children and families through effective and nurturing programming with a goal to build, sustain and enhance a nurturing environment for Wisconsin's children and youth. CSSW has evolved to become the largest not-for-profit, non-sectarian provider of community-based child and family services and child welfare services in the state.

Core service areas include Child and Family Counseling, Out-of-Home Care, Child Welfare, Family Preservation and Support, Child Advocacy and Protection, and Community Education and Injury Prevention. Service providers positively impacted the lives of more than 18,000 children and families in 2016.

Our services, combined with the medical expertise of Children's Hospital of Wisconsin, bring child health and welfare together to transform the health and well-being of children, families and communities – because kids deserve the best.

Did you know?

Staying healthy is mostly about what happens outside the doctor's office.

10%

In fact, only 10% of our health comes from access to **quality health care**.

20%

The rest comes from:
The world around us
(home, school, community)

30%

What we're born with
(family history)

40%

The choices we make
(food, exercise, safety)

McGinnis, J.M. et al. Health Affairs 2002;21(2):78-93

Net Nonoperating Gain (Loss) **\$2,940,881**

Excess (Deficit) of Revenue over Expenses **\$(1,510,499)**

YOUR SUPPORT IS NEEDED

Our vision is to transform Wisconsin's children into the healthiest in the nation. As a private, not-for-profit organization, we cannot do it alone. We receive funding from federal, state and county contracts, United Way, and client fees, but could not continue providing many services without the support of corporate, foundation and individual donations. Critical services such as Child and Family Counseling and Child Advocacy Centers are only partially funded by sustainable revenue streams and require financial support from other sources. Private donations help us improve the health of our most at-risk children and families across the state.

PROGRAM DESCRIPTIONS

CHILD AND FAMILY COUNSELING

Children's provides counseling services to reduce stress and conflict within families, improve parenting skills, help children and families deal with traumatic situations, and address behavioral and social challenges. Our experts are trained in Parent-Child Interaction Therapy, a research-based intervention for young children with emotional and behavioral issues in which parents are coached on how to improve the parent child relationship and create positive interaction patterns.

OUT-OF-HOME CARE

Children's provides out-of-home care and adoption services to help match displaced children with loving, caring homes. Our goal is to ensure permanent, safe and nurturing environments for all Wisconsin children.

Family visitation services provide highly individualized visitation and exchange services to high-risk families.

Children's provides public child welfare services in Milwaukee County under a state contract. Services are guided by family-centered practice and focus on providing for the safety, permanence, and well-being of each child.

FAMILY PRESERVATION AND SUPPORT

Through our home visiting programs, parent educators trained in Parents as Teachers curriculum provide in-home parent education and child development services to families with children younger than age 5.

Our Family Resource Centers provide parents and caregivers with information and support to promote the healthy growth and development of children and to strengthen family relationships. Through parenting education programs, we provide families with the knowledge and tools they need to support their children's development.

CHILD ADVOCACY AND PROTECTION

Children who are victims of abuse or neglect need a safe place to talk about what happened to them and to get the medical care they need. Our Child Advocacy Centers provide the support these children and their families need.

COMMUNITY EDUCATION AND INJURY PREVENTION

Children's keeps communities, families, and children safer and healthier through innovative programs such as Project Ujima, Volunteer Respite, Awareness to Action, and Prevent Child Abuse Wisconsin.

INSTITUTE FOR CHILD AND FAMILY WELL-BEING

The Institute is a collaboration between Children's Hospital of Wisconsin and the Helen Bader School of Social Welfare at the University of Wisconsin-Milwaukee. The Institute aims to improve the lives of children and families by designing and implementing effective programs, conducting cutting-edge research and evaluation, and promoting change through policy and advocacy.
