**Imaging services**

Staff and providers in our Imaging Program use the newest, most advanced technology to provide the highest-quality diagnosis and treatment options for children. The department offers a wide variety of services, including:

- Computed tomography (CT) 128 slice low-dose scanner
- EOS low-dose upright imaging system
- Fluoroscopy low-dose
- Interventional radiology
- Magnetic resonance imaging (MRI) 1.5T and 3T
- Nuclear medicine
- Sedation
- Ultrasound
- X-ray
- Coming in 2018 – PET/MRI

**Radiologist Services**

The imaging department has a total of 12 attending radiologists. The radiologists are sub-specialized in 3 services: neuroradiology, body imaging, and interventional radiology.

The radiologists provide onsite staffing coverage for 3 locations:

- Milwaukee Campus
- New Berlin Clinic
- Mequon Clinic

The radiologists also provide interpretations for 3 other locations:

- Delafield Clinic
- Greenfield Clinic
- SurgiCenter

The radiologists provide onsite coverage at the Milwaukee Campus Monday – Friday 6 a.m. – 10 p.m. and Saturdays and Sundays 7 a.m. – 12 p.m., and Monday – Friday 7 a.m. – 5 p.m. at New Berlin and Mequon Clinics. The radiologists are on call for all 3 services 24/7. Additionally, the imaging resident provides in house coverage outside of the radiologists staffed hours.

A radiologist is also assigned the responsibility of “the officer of the day”. This radiologist is scheduled at the Milwaukee Campus and available to answer questions or discuss specific cases when the radiologists assigned to a specific service are unavailable.

The radiologists providing coverage at the New Berlin or Mequon Clinics have the ability to assist providers at the Milwaukee Campus via Virtual Radiology Consult. This provides the option to review imaging studies in real time with referring providers remotely, by sharing their PACS screen.

Updated on: 6/20/2017
Updated by: Kris Haselow and Dr. David Gregg, MD
• The radiologist and referring provider each log into the system to review images.
• The radiologist and provider have the ability control the mouse highlighting areas of question as well as relevant imaging findings.
• The imaging file room staff will assist the referring provider by locating the radiologist for the consult, establish direct phone connection with the radiologist and then initiate the Virtual Radiology Consult.

Every CT, MR, NM, IR and fluoroscopy order is evaluated and protocoted by the radiologist. If there is an unusual order for other modalities, these are brought to the attention of the radiologist by the technologist.

**To Speak to a Radiologist:**
Please call (414) 266-3225
If unavailable at 266-3225, please contact the Officer of the Day call 414-266-4130 or page via intranet:

**On Call Schedules**
Specialty Subtype Selection for Imaging MD - Monday - Friday 7:30a-5p
Select from the following:

- Choose from the schedules below for MD on service. These schedules are Monday thru Friday, 7:30a-5p.
- Body CT/MR
- Body Ultrasound
- Fluoro
- Interventional
- MSK CT/MR
- Neuro
- Nuclear Medicine
- Plain Films: Inpt/ED/TCT/U/C/cal results
- Plain Films: Outpatient
- DePfield Clinic
- Mequon Clinic
- New Berlin Clinic
- Officer of the Day

**Submit Information**

**Scheduling an Imaging Appointment:**
Please call Central Scheduling at (414) 607-5280 or (877) 607-5280
Please fax orders to (414) 607-5288
