

Fat-Controlled Diet

What is a fat-controlled diet?

This means that your child must eat a diet that is low in fat. Your child's doctor has recommended this type of diet. Don't worry! There are many low-fat foods to choose from.

Your child's total daily fat goal is ____grams per day.

How do I know if a food is low in fat?

Use the Nutrition Facts label!

- Check the serving size.** Compare the label serving size with how much your child really eats.
- Check total fat.** Generally, look for foods that have 3 grams of total fat or 0 grams of trans fat.
- If your child eats more than one serving, multiply the number of servings by the grams of total fat to calculate the total grams of fat your child eats.

Example: You eat 2 cups of this food (2 servings)

$$2 \times 3\text{g total fat} = 6\text{g}$$

Nutrition Facts	
Serving Size 1 cup (240 mL)	
Servings Per Container 8	
Amount Per Serving	
Calories 130	Calories from Fat 25
% Daily Value*	
Total Fat 3g	5%
Saturated Fat 2g	10%
Trans Fat 0g	
Polyunsaturated Fat 0g	
Monounsaturated Fat 1g	
Cholesterol 10mg	3%
Sodium 135mg	6%
Potassium 370mg	11%
Total Carbohydrate 15g	5%
Sugars 15g	
Protein 11g	22%

Remember, foods that are high in fat can still fit into your child's diet as long as the total grams of fat per day doesn't total more than their goal for the day.

What do all those sayings on the labels mean?

Nutrition labels can be confusing. This table shows what the words on labels mean.

Fat free	Less than ½ gram fat per serving
100% fat free	Meets requirements for "fat free" as there is less than ½ gram fat per serving
Low fat	Three or less grams fat per serving
Reduced fat	At least 25% less fat when compared to similar food
Saturated fat free	Less than ½ gram saturated fat per serving
Low saturated fat	One gram or less saturated fat per serving; no more than 15% total calories from saturated fat
Reduced saturated fat	25% less saturated fat when compared with similar food

What are some good food choices for my child?

Use the following lists of foods to help you make good choices that are low in fat. There are many more foods than what it on this list that you may choose from. It is important to always read the food label to determine the exact amount of fat in each food.
