Preparing Children for Transitions

Adoption Resources of Wisconsin
Honesty to children throughout the permanency process is difficult but helps them understand each step of what they are going through. Remember to “Listen, Listen, Listen to the child’s expression of their needs.”

There are universal messages that need to be addressed at each point in the continuum (always frame questions age appropriately):

- What do you want?
- What do you need?
- Will I be safe?
- You’re not in trouble, it’s not your fault
- How to keep contact with people with whom you want to maintain connections?
  Who are the important people in your life?

**ENTERING OUT-OF HOME CARE**

These questions should be phrased in first person.

- Why did this happen?
- Why am I being moved?
- Will my birthmother and dad be ok?
- Where am I going?
- Will I be safe?
- Will I ever go home again?

- Most kids are really scared when they moved to a new home. Open the door to let the child express their feelings
- Talk with the child about school assignments that could be potentially troubling
- Validate feelings
