Dear Friends,

With this report, we have the privilege of reviewing the past year with you and looking forward to our goals for this year and beyond. In 2010, Children’s Hospital and Health System made tremendous strides toward helping our kids become the healthiest in the nation.

We count receiving board approval of our new strategic plan among our most important accomplishments in the past year. The plan calls for developing truly unique national programs, becoming the Midwest’s leading pediatric health care provider and improving population health for Wisconsin children.

Of course, that’s the bottom line for us – doing what is best for the health and well-being of kids. With that in mind, we’re proud to share a few 2010 highlights your generosity and support allowed us to achieve:

- Opened the state’s first pediatric hybrid cath lab to treat complex heart problems.
- Introduced Awareness2Action, a statewide training initiative aimed at reducing child abuse and neglect.
- Partnered with Kohl’s to create “It’s Your Move,” an interactive exhibit at Betty Brinn Children’s Museum.
- Hosted our first prom at the hospital for kids who missed their own schools’ proms due to health considerations.
- Opened the Noel Family Healing Garden adjacent to the hospital lobby, offering a peaceful outdoor oasis for our patients and families.
- Became the second pediatric hospital in the nation to offer low-dose radiation scanning, improving both safety and comfort for kids who need frequent scans.
- Opened the Newborn Progressive Care Unit to provide step-down care for patients from our Neonatal Intensive Care Unit – an important milestone in our plan to expand newborn and fetal care services.
• Broke ground on a new dental and medical care center at Next Door Foundation in Milwaukee’s Metcalfe Park neighborhood.
• Received worldwide recognition for using genetic sequencing to identify a rare disorder that was threatening a child’s life.
• Recruited 198 new foster homes, exceeding a goal established by the Bureau of Milwaukee Child Welfare.
• Provided full scholarships for three NICU nurses to earn their master’s degrees.
• Greatly advanced Glanzmann’s Thrombasthenia and hemophilia A research and made significant progress toward a cure.

When we reflect on this list, one thing is clear: We couldn’t accomplish any of these milestones without your support. Through your gifts of time, talent and dollars, we are saving lives, treating and curing disease, rebuilding troubled families and helping create new families.

We are committed to continuing to achieve incredible results for kids and their families. On behalf of all of the kids, we thank you for your ongoing support of our mission.

Sincerely,

Jay Rothman
Chairman
Children’s Hospital and Health System Foundation Board of Directors

Jim Miller
President and CEO
Children’s Hospital and Health System Foundation

Peggy Troy, MSN, RN
President and CEO
Children’s Hospital and Health System
Meet Mason
Mason was born at 25 weeks, weighing only 1 pound, 15 ounces. He spent 12 weeks in the Neonatal Intensive Care Unit. Today Mason is a healthy, active 5-year-old and has no long-term health concerns due to his prematurity. A generous gift from Christopher and Kelly Rebholz is providing full scholarships for NICU nurses to earn their master’s degrees and become certified as neonatal nurse practitioners. To date, six nurses have received scholarships. These advanced practice nursing positions are a vital component of our newborn care model, helping kids like Mason.

Meet Megan
Since birth, Megan struggled with abdominal swelling and feeding intolerance. As an infant, she was admitted multiple times to hospitals near her Chicago-area home and was placed on IV nutrition support. At 9 months old, Megan was referred to specialists at our Motility and Functional Bowel Disorders Program. After a comprehensive evaluation by the team, she was diagnosed with small bowel and colonic dysmotility. Part of her bowel was later removed. Today, Megan is an active preschooler who enjoys eating three meals a day. She likes ballet, tap dancing and swimming. Donors Bruce and Faith Laning, along with other friends and patient families, have helped form a GI Family and Friends group to help raise awareness and funding for the program’s clinical and research needs.
Meet Tara

Neurofibromatosis type 1 is a genetic disorder with a wide range of symptoms ranging from birthmarks and freckling to skeletal problems, neurological issues and vision loss. Tara, a mother of three, was diagnosed with NF1 as a child. All three of her children, Christina, Daniel and Christopher, inherited NF1. A couple years ago, Christina was diagnosed with a build-up of fluid inside her skull and a possible optic tumor. She underwent surgery and continues to be monitored but has returned to school and is keeping up with her brothers and friends. Through a generous estate gift, The Charlotte Promersberger Johnston Endowed Genetics Research Fund was established. Continuous funding sources such as this are essential for ongoing research that creates hope for a bright future for Christina and all those living with NF1.

Meet David

During a car ride, David began falling in and out of consciousness. He was rushed to the nearest hospital, where he was diagnosed with epilepsy. For the next year, he made many trips to the hospital and took six different medications, but his seizures continued. He began experiencing cognitive and speech delays, increased hyperactivity and inattentiveness. The family transferred David to Children’s Hospital of Wisconsin, where the team quickly developed a plan. After a full evaluation, including a stay in our Epilepsy Monitoring Unit, caregivers prescribed a new medication that controlled his seizures. “Our life truly was given back to us by Children’s Hospital,” said David’s mom. The Heidi Marie Bauman Chair in Pediatric Epilepsy, funded by Heidi’s grandparents, has helped Children’s Hospital’s epilepsy program become a regional leader.
Areas your gifts Supported

Children’s Circle of Care®
2010 Endowed Named Funds

Endowed named funds can be established with gifts of $25,000 or more, payable over a period of up to five years. Endowed funds are invested in perpetuity and generate income that is used annually to support the specific purpose of each fund.

2010 Planned and estate gifts

Many of our friends support us through their estate plans by naming the health system as a beneficiary of a will, trust, retirement plan or life insurance policy, or by making a gift that returns income, such as a gift annuity. Planned gifts can provide financial benefits for you and your family while also helping the children in our community.
